## 2011 Verification Statistics for Daily M flare, X flare, and Proton Event Probability Forecasts

Forecast Type: Likelihood (probability) of the occurrence of an M flare, X flare, or Proton Event

Note:      Mpred1 = M flare PREDiction day 1  
              Mpred2 = M flare PREDiction day 2  
              Mevents = Observed number of M flares,  
              etc.

Missing data: NA

Total Records: Total number of daily forecast/observation records used to generate statistics  
365

Event Days: Total number of days in the sample on which at least one (M, X, Proton event) occurred
